Hotel Host Program

Our Hosts are carefully selected for their customers to experience a new and exciting service in hospitality without the costs of purchasing goods, providing space and managing inventory.

Corners of Time offers our host partners a mutually beneficial, stress-free experience.

As you will hear us say, over and over again, we will solve problems not create them, for those who share in our Corners of Time: To sell our products, you don't pay – you get paid. Your customers don't carry it home – we deliver!

We offer you, the host, exclusive gifts for you to give the guests of your choice. In addition, we offer the tasting experience to all your guests. Guests who order will receive a gift certificate to your business worth 10% of their purchase. We purchase these gift certificates from you in advance.

Your customers will be able to taste the best products in the world, and have them delivered in a gift box with no tax, shipping fees or hassle. You will be able to offer them a unique service and experience without any costs to you. We start with a 4 week test program, after which we will evaluate the success and design a more permanent relationship.
